

Mamitiana Faneva ANDRIAHARIMANANA

Fullstack developer

Passionate about the IT field, my academic background has allowed me to acquire the skills to develop this passion. My goal is to use my technical expertise and problem-solving abilities to contribute to the success of constantly evolving organizations. As a fullstack developer, I thrive in dynamic environments where innovation and collaboration drive impactful solutions.

Education

Licence in web developpement

From 2020 to 2023 IT University Antananarivo

That's allowed me to acquire solid skills in :

- Mobile Development
- Project Manager Training
- Web design / Web optimization
- Database management

Scientific baccalaureate

From 2013 to 2020

Gallo Juinor private high school Antsirabe I, Madagascar

I completed my secondary education at the private Gallo Junior High School, where I acquired a solid academic background, which laid the foundations for my professional career.

Additional education

Robotics Certification

2021 . Antananarivo, Madagascar

Work experience

Fullstack developer

Since February 2024 ENERGETICS SARL Remote

- Developed a **web application for license management** using **Spring Boot** for the backend, delivering a high-performance and scalable solution.
- Automated key processes and implemented secure **REST APIs**, reducing manual errors.
- Designed an intuitive **user interface** to simplify license management and provide **real-time visibility** into license usage.
- Collaborated with cross-functional teams to ensure seamless integration and alignment with client requirements.

Frontend developer

From July 2024 to October 2024

AkeTech Agency Ivato (Hybride Remote)

- Designed and developed a **web application for tourists** using **Next.js**, incorporating dynamic and interactive features to enhance user engagement.
- Implemented **responsive design best practices** to ensure cross-device compatibility and accessibility, delivering a seamless user experience across all platforms.
- Collaborated with designers and stakeholders to align the application with user needs and business goals.

Fullstack developer (internship)

From August 2023 to November 2023

NEXITIA TECHNOLOGIES Antananarivo

- Contributed to the development and optimization of a dynamic website using **HTML, CSS, JavaScript, Java, and PostgreSQL**, gaining hands-on experience in full-stack development.
- Developed **strong teamwork and problem-solving skills** while adapting to industry requirements and best practices.
- Strengthened my passion for **web development** and deepened my understanding of **full-stack technologies**.
